

## **Selini Capital Secures Virtual Asset Service Provider Licence from Virtual Asset Regulatory Authority (VARA) in Dubai**

**Dubai, UAE – 14th October 2025**

Selini Capital, a global digital asset trading and investment firm, is proud to announce that it has secured a Virtual Asset Service Provider (VASP) Licence from the Virtual Asset Regulatory Authority in Dubai. The licence allows Selini to offer its full suite of Broker-Dealer services to qualified and institutional investors globally.

The company will be providing OTC trading services utilising its advanced trading technology and broad liquidity footprint to offer unique execution capabilities.

Located in Dubai, Selini Capital FZE further solidifies Selini's commitment to work closely with regional and global partners and be an active member of Dubai's vibrant and rapidly expanding digital asset ecosystem.

The licence comes after a rigorous assessment process during which the company demonstrated its high standards of compliance, commensurate with Dubai's robust regulatory regime for virtual assets.

### **Jordi Alexander, Founder of Selini, commented:**

"Securing our VARA licence is a milestone we are very proud of. The leadership team at VARA has built a world-class regulatory framework that allows digital asset market participants to operate transparently and securely. We look forward to contributing to the growth of Dubai's digital asset industry and working closely with our global partners who will be able to leverage our advanced, high-performance technology and crypto OTC services".

### **Matthew Grint, General Manager of Selini Capital FZE, commented:**

"We are excited to introduce our unique trading capabilities, where partners can now access our innovative liquidity solutions. Selini's strength in order execution comes from our global market connectivity and state-of-the-art trading technology. We are grateful to VARA for the time they have taken to understand our business, and their continued commitment, which we share, to building a safe and secure digital asset economy".

## About Selini

Selini Capital is a global digital asset trading firm focused on providing deep liquidity, precision execution, and reliable OTC services to partners across global markets. Built on proprietary trading technology and extensive market connectivity, Selini combines traditional finance expertise with cutting-edge crypto infrastructure to deliver seamless, secure, and efficient access to digital asset markets.
